2 of 2 review helpful Great book very good translation By Joshua Leeger I believe Nietzsche saw his Zarathustra as his magnum opus the artistic expressive summary of his beliefs It is a wonderful book and anyone who has read his other works will find that Zarathustra really does synthesize and summarize those other works The challenge with Zarathustra and Nietzsche s other works is the depth Spake Zarathustra is a masterpiece of literature as well as philosophy It was Nietzsche s own favorite and has proved to be his most popular In this book he addresses the problem of how to live a fulfilling life in a world without meaning in the aftermath of the death of God His solution lies in the idea of eternal recurrence which he calls the highest formula of affirmation that can ever be attained A successful engagement with this profoundly Dionysian About the Author Graham Parkes is the author of Composing the Soul Reaches of Nietzsche s Psychology Chicago 1994 and the editor of Nietzsche and Asian Thought Chicago 1991 He is joint editor with Steve Odin of The Blackwell Source Book in Japanese
