9 of 9 review helpful Five Stars Plus By Stephen M Kerwick I m in my early 60s and I don t want to be hyperbolic but this is one of the half dozen most worthwhile books I ve read in my life Spinoza s thought is as heavy and complex as it is true and finding a text that gets it across reasonably priced easily is no mean task Leo Strauss s Spinoza s Critique of Religion is very good but I was more than 3 weeks in gettin When it appeared in 1670 Baruch Spinoza s Theological Political Treatise was denounced as the most dangerous book ever published godless full of abominations a book forged in hell by the devil himself Religious and secular authorities saw it as a threat to faith social and political harmony and everyday morality and its author was almost universally regarded as a religious subversive and political radical who sought to spread atheism through Honorable Mention for the 2011 PROSE Award in Philosophy Association of American Publishers In this clearly written and accessible book Nadler offers up a historical and philosophical analysis of Spinoza s Theological Political Treatise
