By Catherine Malabou : Before Tomorrow: Epigenesis and Rationality Before Tomorrow: Epigenesis and Rationality:

Is contemporary continental philosophy making a break with Kant? The structures of knowledge taken for granted since Kant's *Critique of Pure Reason* are now being called into question: the finitude of the subject, the phenomenal given, a priori synthesis. Relinquish the transcendental: such is the imperative of postcritical thinking in the 21st century. Questions that we no longer thought it possible to ask now reemerge with renewed vigor. About the Author: Catherine Malabou is Professor of Philosophy at Kingston University London.
