By Zygmunt Bauman : Liquid Times: Living in an Age of Uncertainty life on earth depends on liquid water and the temperature at which it freezes or boils how much would the values of 0c and 100c need to change to make life here in physical cosmology the age of the universe is the time elapsed since the big bang the current measurement of the age of the universe is 13799 0021 billion Liquid Times: Living in an Age of Uncertainty:

1 of 1 review helpful Five Stars By Rodolfo C Schweizer Super excellent book The best book to explain and

understand what's going on in a world in total decadence 1 of 1 review helpful Insightful By J R Maramaldo I found his insights a good complement to reading Chomsky's thoughts on the workings of power I recommend it to those who cannot help themselves but think The passage from solid to liquid modernity has created a new and unprecedented setting for individual life pursuits confronting individuals with a series of challenges never before encountered Social forms and institutions no longer have enough time to solidify and cannot serve as frames of reference for human actions and long term life plans so individuals have to find other ways to organise their lives They have to splice together an unending series of short te Liquid Times and Living on Borrowed Times offer deep insights into post modern life Specifically it exposes the essential social and philosophical changes that lie at the heart of the conditions that led to the global financial crisis the
