By Gilles Deleuze, Felix Guattari : A Thousand Plateaus: Capitalism and Schizophrenia capitalism and schizophrenia a two volume work consisting of anti oedipus 1972 and a thousand plateaus 1980 capitalism and schizophrenia was an influential exegesis of audre lodes well known declaration that the masters tools will never dismantle the masters house A Thousand Plateaus: Capitalism and Schizophrenia:

6 of 7 review helpful A Must Read that very well might give you a headache By James Curcio This is the kind of book you need to read with a notebook and highlighter and take the time to look into every single word and concept you're not familiar with A lot of it seems like downright gibberish but if you start to delve into systems theory and chemistry and linguistics and all the disciplines they tie in you start to see it A Thousand Plateaus continues the work Gilles Deleuze and Félix Guattari began in Anti Oedipus and has now become established as one of the classic studies of the development of critical theory in the late twentieth century It occupies an important place at the center of the debate reassessing the works of Freud and Marx advancing an approach that is neither Freudian nor Marxist but which learns from both to find an entirely new and radical path A rare and remarkable book — TLS TLs Language Notes Text English French translation About the Author — nbps Gilles Deleuze 1925 1995 and Félix Guattari
