9 of 11 review helpful Controversial insightful and a bit over the top By Jed Verity This is a highly provocative work of psychoanalysis scholarship especially for those of us with only a passing knowledge of Freud s work Brown interprets and modernizes such seminal Freudian hypotheses as the castration complex and penis envy love and religion as neuroses the connection between feces and money and the body s impede A shocking and extreme interpretation of the father of psychoanalysis lquo One of the most interesting and valuable works of our time Brown rsquo s contribution to moral thought cannot be overestimated His book is far ranging thoroughgoing extreme and shocking It gives the best interpretation of Freud I know rdquo
